

NATURAL SCIENCE 2
UNIT 3

Animals.

Name:

ANIMALES VERTEBRADOS

Los animales **vertebrados** son los que tienen columna vertebral. Hay cinco grupos de animales vertebrados:

| MAMÍFEROS | AVES | PECES | REPTILES | ANFIBIOS |
|-----------------------|-----------|-----------|-----------------------|-----------------------|
| | | | | |
| vivíparos | ovíparos | ovíparos | ovíparos | ovíparos |
| pulmones | pulmones | branquias | pulmones | pulmones branquias |
| pelo | plumas | escamas | escamas caparazón | piel desnuda |
| terrestre acuático | terrestre | acuático | terrestre acuático | terrestre acuático |

1. Completa la tabla poniendo un tick donde corresponda.

| | Mamíferos | Aves | Peces | Reptiles | Anfibios |
|--------------|-----------|------|-------|----------|----------|
| Vivíparos | | | | | |
| Ovíparos | | ✓ | | | |
| Pulmones | | | | | |
| Branquias | | | | | |
| Pelo | | | | | |
| Plumas | | | | | |
| Escamas | | | | | |
| Caparazón | | | | | |
| Piel desnuda | | | | | |
| Terrestre | | | | | |
| Acuático | | | | | |

2. Dibuja un animal de cada tipo.

MAMÍFERO

AVE

PEZ

ANFIBIO

REPTIL

VERTEBRATE ANIMALS

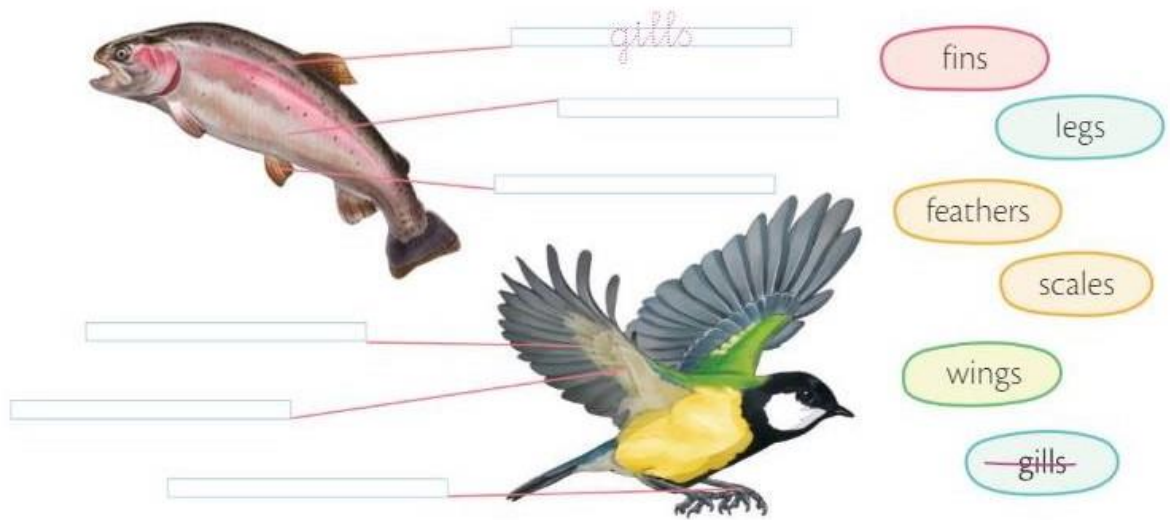

Vertebrates have a backbone. There are five different groups:

| mammals | birds | fish | reptiles | amphibians |
|------------------------|-------------|-----------|------------------------|------------------------|
| | | | | |
| viviparous | oviparous | oviparous | oviparous | oviparous |
| lungs | lungs | gills | lungs | lungs gills |
| hair | feathers | scales | scales shell | bare skin |
| terrestrial aquatic | terrestrial | aquatic | terrestrial aquatic | terrestrial aquatic |

3. Match the pictures with the correct group of vertebrates.

mammals
 birds
 reptiles
 fish
 amphibians

4. Label the parts using the words.

5. Match the animals to their habitats and the way they move.
